

HOP REPORT

MONTH - JUNE

YEAR	2019	2018	30-years average
avg. temperature	21,4	18,4	17,0
precipitation	56,2	52,8	59.1
	Day	Value	
max. precipitation	10.06.2019	43,0	mm
min. temperature	09.06.2019	5,3	°C
max. temperature	26.06.2019	37,7	°C

Comments	<p>June was on average as to precipitation and above average as to temperatures compared to 30-years average.</p> <p>Some, mainly older hopplants, haven't reached the top of the trellis yet and lack of water in combination with high temperatures negatively affect their growth. Hopplants are making side branches and some of them (earlier cut) are starting to bloom.</p> <p>Chemical protection against downy mildew, aphides and red spider mite was continually performed. The hopplants are in good health condition.</p>
